RF Gold Micro + ICE Hammer + 4 Cartridges

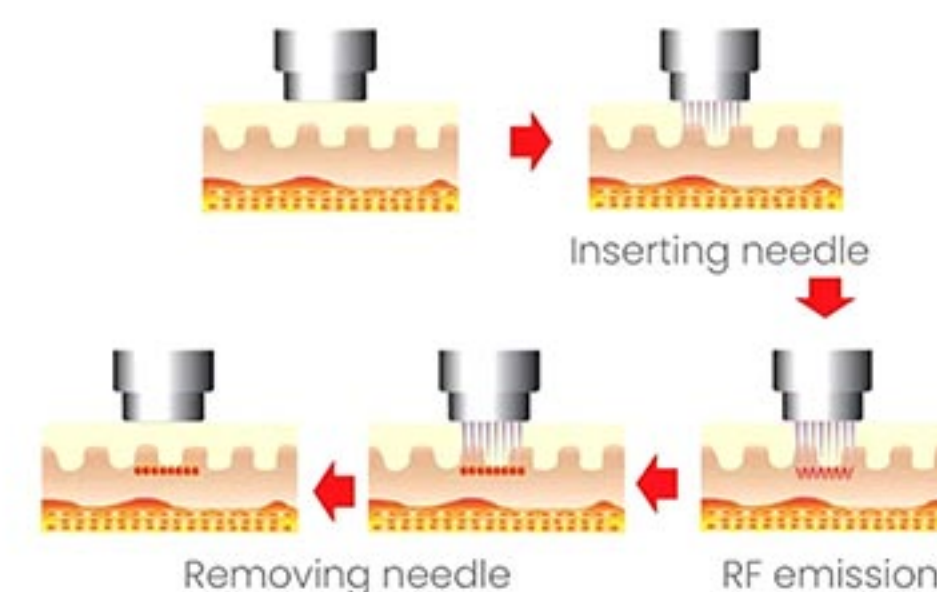

Skin Rejuvenation Series LS0372

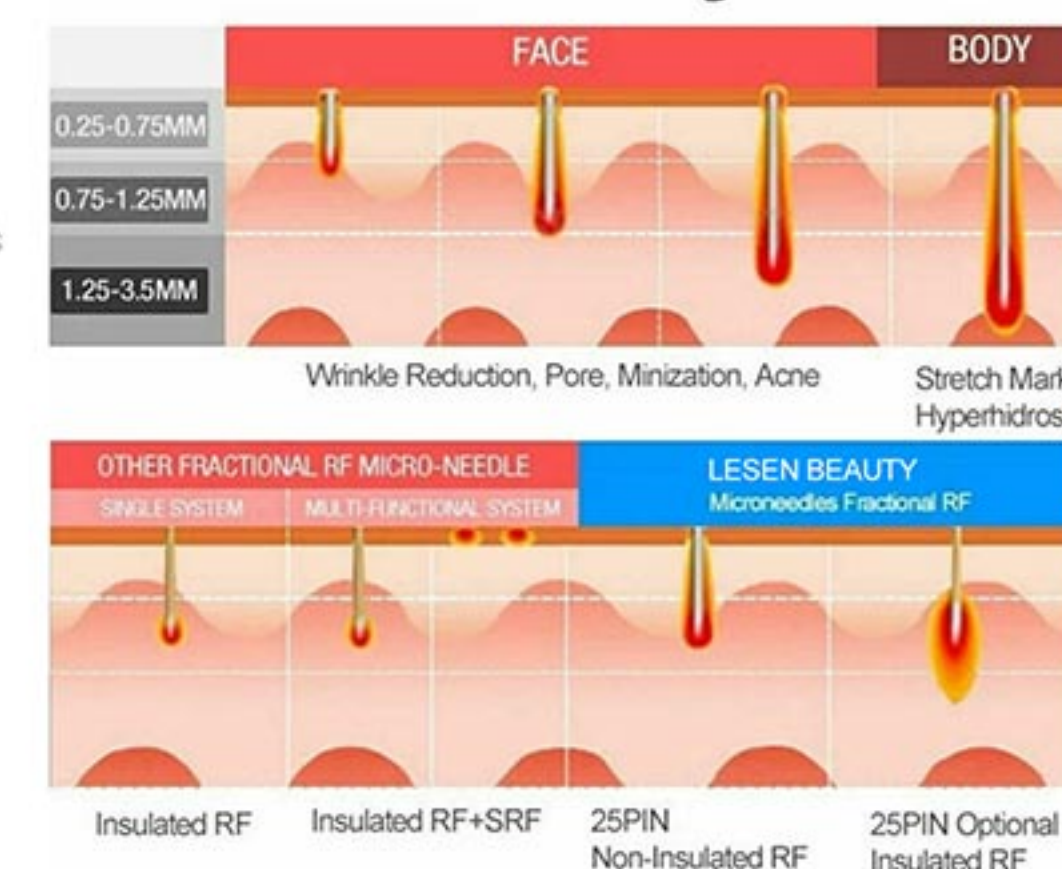

Minimise Pores, Deep Wrinkles,
Acne Increases Skin Collagen,
Elasticity Reduce Stretch Marks,
Scars Increase Hair Restoration
Reduce Excessive Pigmentation

Principle

Microneedle RF machine is a combination of modern microneedle rejuvenation, dot matrix pixel laser, RF and other technologies improved, through the insulating coating micro-needle into the subcutaneous dermis, the use of radio frequency, laser and other technologies directly acting on the dermis, then heating.

Theory

Product Advantage

- Insulated needles: equal therapy to epidermis and dermis layer
- Stepping motor type: needle inserts to skin smoothly without shock
- Gold plated needles: high biocompatibility, suits metal allergy patient
- Precise depth control: 0.2-3.5mm in unit of 0.1mm
- Safety needle system:
 - sterilized disposable needle cartridge suction combined probe for better skin contact
- User-friendly handpiece design:
 - handpiece trigger button
 - 4 different shape needle cartridges suits to different treatment area

Gold RF Microneedle Machine

Serial NO:LS0372AWZ2900

Fractional Micro Needle RF

System is a ideal technology for skin rejuvenation by applying preciously controlled RF energy directly into a certain depth of dermis with minimallyinvasive micro needles. Such an idealcombination of micro needling plus RF energy reduces treatment time and recovery timesignificantly differentiating from fractional laser based treatment. Moreover, fractional Micro needle RF system can be treated irregardless of skin type, even darkerskin with low risk of skin burns and PIH comparing with other laser treatment.

448K FEVER MASTER

RET CET Tecar Therapy Electric
Pain Relief Physiotherapy Equipment

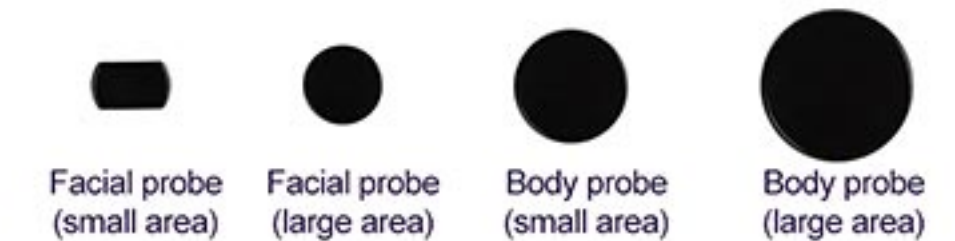

RES deep internal thermal conductivity probe

Projecting high frequency energy deep into the body. It can act on the deep subcutaneous layer, unblocking the meridians, unblocking the qi and blood, discharging toxins, nourishing the internal organs and defending the organism, and also generating deep heat under the skin to decompose body fat, thus achieving weight loss

CAP Ceramic Probe

Advanced high frequency technology, anti-aging, wrinkles, pigmentation, sagging improve the rhythm of skin cell regeneration effective control of acne growth soothe neck, expression muscles

JMD massage probe

It penetrates 12 cm under the skin to reach the superficial, middle and deep fascial layers, activating dormant cells and promoting cell regeneration, repairing damaged lesion cells, and making the fascia permeable to health in 30 minutes

Product Advantage

- **Non-thermal effects:** Stimulates ion exchange, activates cellular nutrition, promotes metabolism, eliminates inflammation and relieves pain.
- **The warming effect:** Promotes vasodilation, promotes microcirculation, balances hormone secretion, promotes lymphatic drainage, stimulates fibroblasts, and provides basal body temperature.
- **Scorching effect:** Highly active metabolism, stimulates cell repair, lipid breakdown, activation of enzymes and new collagen production

Rose Quartz Hot and Cold Radio Frequency Multifunctional Beauty Instrument

Natural rose quartz from Mozambique

Mozambique rose quartz primarily acts indirectly on the skin through its energetic properties. Its gentle energy is believed to balance the heart chakra and alleviate emotional stress, thereby improving skin problems caused by stress and anxiety and promoting a healthy glow.

Product Advantage

Red Light (Hot Compress):

640nm red light penetrates 1–6mm into skin. Combined with heat, it opens pores, boosts collagen, improves elasticity, reduces fine lines, and promotes deeper skincare absorption.

Blue-Violet Light (Cold Compress):

423nm blue light penetrates up to 1mm, offering antibacterial and cleansing action. Helps treat acne-prone skin, prevent breakouts, and support wound healing.

Green Light (Normal Temp + Vibration):

520nm green light helps balance pigmentation, reduce redness, and brighten dull skin. Vibration gently stimulates the surface, temporarily loosening pores and enhancing product absorption while relieving facial tension.
